HORSE AND RIDER KILLED OUTRIGHT

In Riding Accident Near Hammers' Store Saturday Night Young Man Lost his Life. His Horse Killed in Falling.

Roy A. Weaver, the sixteen year old son of Mr. and Mrs. Harry A. Weaver, of near Knoxlyn, was thrown from his horse near Hammers' Hall Saturday night and killed instantly. The horse also falling and breaking its neck.

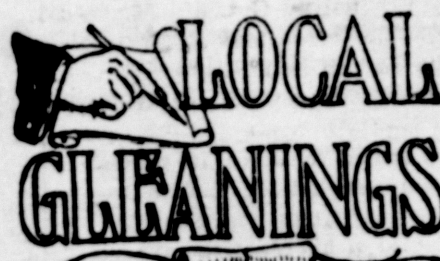

The young man had been at Hammers' Hall in the evening and started home with a number of others who had been at the store, among them a son of Jacob Stoner. Stoner and Weaver were on horseback and after they had gone a short distance the latter remembered several things which he was to have purchased at the store. He returned for them and when he started out again was riding rapidly to overtake his companion. On his way he passed Allen Knouse and son and H. M. Trostle and son, all walking. They called to him as he rode by that he could not catch Stoner but the boy called out that he would and galloped on rapidly.

When the men had walked a few hundred yards farther they came upon the body of a horse and upon looking closely found it to be that of young Weaver. The animal was dead, and its position showed that it had turned completely over, its head lying the direction opposite to that which it had been going.

Upon further examination the body of the young man was found under that of the horse. Mr. Knouse made a thorough examination and found that young Weaver was dead. They hurried back to Mr. Hammers' store and telephoned the boy's father. He with several neighbors took the body home. Several years ago the unfortunate young man was injured in an accident with the same horse, being disabled for several weeks.

Roy A. Weaver was an exemplary young man. He was of an unusually quiet disposition and when he spent an evening at the much frequented store of Mr. Hammers always sat with the older men and listened to their conversation instead of mingling with the other boys in the fun. His seventeenth birthday would have been January 9, 1911.

His parents and three brothers survive, Rufus, Lohman and Clinton. Funeral Wednesday morning at ten o'clock at Foutz's church.

Miss Dora Frommeyer has gone to Baltimore for a visit of several days.

Park Noel was a business visitor in Hanover and Littlestown today.

Mrs. W. S. Schroeder left this morning for a trip of several weeks to Dakin, Nebraska.

Henry Kalbfleisch was a business visitor in York today.

GOT \$800 MORE THAN NECESSARY

St. James Lutheran Congregation Rises to Occasion and Contributes Two Thousand Dollars at One Service.

At the morning service in St. James Lutheran church on Sunday more than enough funds were raised to complete the \$15,000 preliminary fund deemed necessary before construction of the new edifice should be commenced.

The building committee reported that they had completed their second canvass to raise this fund and that they had secured \$18,800. This left \$1200 to meet the required amount. Rev. Mr. Baker stated to the congregation then that there were three things which might be done, either the entire plan could be abandoned, or else the committee could be sent out for a third canvass, or an effort could be made to raise the necessary funds right there.

Mr. William H. Johns moved that the last plan be adopted, subscribing \$50 himself in addition to his previous subscriptions. The motion was carried and when all of the voluntary contributions had been received it was found that more than \$800 had been raised or \$800 more than was deemed necessary.

The congregation and its friends felt justly proud over the result. The building committee expect to meet the architect, Mr. Ritcher later this week to discuss plans for the building which is expected to cost in the neighborhood of \$30,000.00. The plan is to be ready for work as soon as possible in the spring so that the construction may be finished during the summer months.

CELLAR ROBBED

The home of John McClell, of near Greenmount, was entered at night and over sixty jars of fine canned fruit removed from the cellar. Nothing else was disturbed but such a wholesale theft of the fruit took place that it is believed the sweet toothed thieves took it away in a wagon.

Mrs. McClell put up over three hundred jars of canned fruit during the past summer and among her supply in the cellar were a number of fine varieties. The unwelcome visitors took some of each and drove away to enjoy them at their leisure.

Peaches, pears, berries of various kinds, cherries and other luscious fruits made up the haul the underground operators secured.

Entrance was gained through the cellar door and the general method of operating showed that the men knew the fruit was there and that they were pretty well acquainted with the premises.

Forty two cars were required to haul the phosphate which was consigned to 15 different persons.

STOVES CAUSE TWO UGLY FIRES

Home in Hamiltonban Township Burned in Blaze Caused by Overheated Stove. Littlestown Has Fire from Same Cause.

The house of John Reese in Hamiltonban township, above The Viaduct, was burned to the ground about nine o'clock this morning together with almost all the contents. An overheated stove was the cause for the blaze which destroyed the building.

Mrs. Reese is very ill and she had to be carried from the blazing building to a place of safety, later being removed to the home of a neighbor where she is being cared for.

The Reese home was a new two story frame house. The fire gained rapid headway and had so far advanced when it was discovered that the flames could not be conquered and the building burned so rapidly that after Mrs. Reese was carried out little could be saved of the contents and there were very few articles got out.

All of the other buildings at the home were saved, neighbors gathering and rendering all the assistance they could.

FIRE AT LITTLESTOWN

The Littlestown Fire Department was called out on Sunday morning about eleven o'clock when smoke was seen issuing from the store of A. F. Wildasin on Hanover street. Before the flames were extinguished damage amounting to several hundred dollars was done.

Mr. Wildasin and his family had gone away for the day and the first intimation of the fire was received when people walking along the street, saw smoke coming from the rear of the building. They at once turned in an alarm and then proceeded to investigate. It was found that the stove in the rear of the store room had set fire to some goods and that a fire was smoldering.

Weather boarding was torn off from the rear of the building and the firemen, who responded promptly, soon had a stream of chemicals working on the flames. They were extinguished after a few minutes' work.

Some shelving was burned and considerable damage was done by the smoke. Only the timely arrival of the company and the fact that the flames had no air to fan them prevented a very serious fire.

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Grew a Full Growth of Hair on a Bald Head

Here's the Proof

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

BUSY WEEK FOR ROOSEVELT

His Voice Will be Heard in New York, Iowa and Ohio.

WILL DINE WITH BISHOPS

In Midst of Campaign Jaunt the Colonel Will Visit Baltimore and Address Students of Goucher College.

New York, Oct. 31.—The last week of Colonel Roosevelt's campaign began today, and he will put in one of the liveliest weeks that he has had since he returned from the lion hunt, and that's going some.

He will make nine speeches in this city and leave for Buffalo tonight. Tomorrow he will speak at a number of places along the line and the big speech in Buffalo at night.

He will return to New York Wednesday morning and then pull out for Baltimore. There he will dine with the Methodist bishops and make a speech to the teachers and students of Goucher college.

After that the colonel will start for the west. He is due to arrive in Davenport, Ia., on Friday morning. There will be a two-hour stop in Chicago Thursday night. In the afternoon Mr. Roosevelt will visit Des Moines, and during the day he will deliver car speeches whenever he gets a chance.

The call in Iowa is for the purpose of campaigning. At Davenport the colonel will say kind words for Charles Glick, who is running for congress. There is some wonderment being expressed as to how they will receive Mr. Roosevelt in Iowa now after the dissatisfaction expressed by the insurgents upon the adoption of the Saratoga platform in New York state. Senator Cummins came east a while ago for the very purpose of discussing the situation with the colonel and placing the facts before him.

But Saturday in Ohio gives promise of even more interest than the other visit. After Senator Foraker's attack of a week ago upon the new nationalism there was some curiosity as to what Mr. Roosevelt would do. As things now stand he will do just as he planned. His present intention is to deliver the same kind of addresses that he has been delivering here. His friends, as well as his opponents, are wondering what the colonel will have to say about the stand-pat Ohio platform and its candidate for governor, Warren G. Harding.

Mr. Roosevelt is due to land in New York next Sunday. Following a day of quiet at Sagamore Hill, he will go to town on that day to put on the finishing touches to the campaign he has been making for Harry Stimson, and then he says he will be absolutely silent.

MRS. HARRIMAN'S GIFT

Presents New York State 10,000 Acres For Park.

Albany, N. Y., Oct. 31.—Mrs. Edward H. Harriman, widow of the railroad man, personally handed to the Palisades park commission the deed conveying to the state the 10,000 acres of land in Orange and Rockland counties, which she gives to be added to the park in memory of her husband.

In addition, Mrs. Harriman gives a check for \$1,000,000, her donation toward the improvements and maintenance of the park.

The ceremony took place at Bear Mountain, on the abandoned state prison site, which the commission on new prisons handed over to the park authorities at the same time. Adjutant General Verbeck represented Governor White.

At the coming election the people have to vote on the proposition to bond the state for \$2,500,000 to be spent on the new public park. If that sum is voted it will be increased by \$1,625,000 in promised gifts.

Demand For Sleep Fatal.

Darby, Pa., Oct. 31.—After suffering for over three weeks from a peculiar malady, caused primarily, the specialists declare, by two of his ribs growing together, which pressed on his heart, Robert Green, aged seventy-seven years, a former Darby councilman, president of the Darby school board and a school director. For over a week Green could not lie down without violent smothering spells. The doctors warned him not to lie down at all, but after a week of sitting up, exhausted nature asserted itself and he lay down and never awakened.

Pittsburg Grafter Jumps Bail.
Pittsburg, Pa., Oct. 31.—Hugh Ferguson, the famous attorney councilman grafter of Pittsburg, who was sentenced to eight months in the Allegheny county jail, is missing and his bail has been forfeited by the county authorities. Sheriff Bruff has issued a capias for the arrest of Ferguson wherever found. Ferguson is worth perhaps \$500,000.

MINE RESCUE CAR TO TOUR STATE

Will Soon Leave Pittsburg For Anthracite Fields.

TO TEACH LIFE SAVING

Similar Cars Will Visit the Soft Coal Regions and Instructions in Rescue Work Will Be Free.

Washington, Oct. 31.—The first of the six portable mine rescue stations with which the new bureau of mines plans to instruct the miners in the use of mine rescue apparatus and first aid to the injured appliances, will soon start on its mission, according to a statement just issued by the bureau.

It will be known as car No. 1, will start from Pittsburg and will cover the anthracite fields in Pennsylvania and vicinity.

About Nov. 1 car No. 2 is expected to reach the bureau of mines rescue station at Urbana, Ill., where it will receive its full equipment. This car will then proceed to Danville, Ill., Terre Haute, Ind., and through southern Indiana to Evansville.

Four other cars, with headquarters at Rock Springs, Wyo.; Billings, Mont.; Salt Lake City, Utah, and Knoxville, Tenn., will be turned over to the bureau of mines within a short time.

To Use Cars in Emergencies.

In addition to the educational work which has been mapped out for these cars, they will be kept in readiness to proceed at a moment's notice to aid in rescue work at mine disasters.

This is the first important step taken by the new bureau in its efforts to reduce the appalling loss of life in American coal mines.

In European countries the per capita loss of life in the mines is smaller than in the United States, where rescue apparatus has been in use for some time.

In addition to a mining engineer, who will lecture on greater safety in mining, and a Red Cross surgeon, who will give demonstrations in first aid to the injured, each car will have a complete corps of rescue men who will teach the miners how to use the oxygen helmets, as well as train them in practical rescue work.

To Give Instruction Free.

Stops long enough to enable miners to go through training in rescue work will be made at each mining town. This training will be free of cost to the miners. Certificates of competency will be issued to the miners who take the full course of instruction in mine rescue and first aid work, and a record will be kept of these men as being available for emergency calls in the event of a disaster.

The loss of life in the mines of the United States, according to a bulletin issued by the bureau, amounted to from three to five for every 1000 employed, while records from foreign countries show from one to two killed in each 1000 employed.

In those European countries where the deaths are least per 1000, continues the statement, rescue apparatus has been in use for some time.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have to much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Sold by Druggists. 75c. ASK MR. LAFEAN

If there are any voters in this congressional district who are at all in doubt as to the Cannonism of Mr. Lafean, if they can hardly bring themselves to believe that he has worked and voted for the interests which are arrayed against them, let them ask Mr. Lafean. Let them put direct questions to him and insist upon having direct answers. Here are some questions the answers to which interest every man, woman and child in the district.

Did you vote to tax the public \$15,000,000 a year for the benefit of the Sugar trust?

Did you vote for schedule K, the wool section of the tariff bill, which President Taft has declared to be indefensible?

Is this the section that forces the poor man to clothe his family in cotton and shoddy because, by the enormous profits it guarantees the Wool trust, it places woolen clothing beyond the reach of the poor?

Did you vote for the "jokers" in the Aldrich cotton schedule, and by so doing compel us to pay the Cotton trust a private profit of more than twice the labor cost for the manufactured articles?

Did you vote for the special enrichment of special firms in New England, thereby helping them unfairly to take money from the rest of the country, including your own constituents?

Did you vote for the notorious rubber schedule which was framed for the personal profit of Aldrich, the Guggenheims and others at the expense of the public?

Were you ready at the call of Penrose to vote for every vicious clause of the railroad bill?

What did you do in the two last sessions of congress, the most momentous in many years, in the interests of the great public and against the corporate greed that was arrayed against the public?

Why did you vote with and for Cannon at the time when the best men in both parties in congress were united to curb the power that he had misused to secure legislation favorable to the enemies to the people and to control congressional action according to his own will, regardless of the wishes of a majority of the members of congress?

Are you proud of your record which is best described in the single word Cannonism?

There are many more pertinent questions that will suggest themselves to the intelligent seeker after information from headquarters, and they may be added if desired, but these are enough to satisfy any man regarding the political character of the present representative of this district in congress, and we are sure they are sufficient for Mr. Lafean to face at all "heckling." It would also be well to submit them to any "worker" for Mr. Lafean who may seek your vote for his candidate. In any event and at all times brush aside attempted evasion and insist upon a direct answer. Such action will cause a lot of squirming but it will be the only way to get at the truth.

Ask Mr. Lafean. Ask him early and often, and ask every man who tries to argue with you that Mr. Lafean is a proper person to represent you in congress.

Then, when you have it proved to your own ears that Mr. Lafean has at all important times represented Cannon instead of his constituents, go to the polls and do to him what Maine did to the unfaithful ones there, and what is going to be done to all the followers of Cannon in all places where the people have been aroused to the danger of the situation.

WINS STATUE OF LIBERTY RACE

Moisant Defeats Grahame White and De Lesseps.

40,000 PEOPLE CHEER HIM

Brother Comes to Aviator's Rescue by Buying Monoplane in Emergency For Daring Flight.

New York, Oct. 31.—John Moisant, of Chicago, exploded upward from the international aviation meet at Belmont park and flew a fifty-horse power Bleriot from Belmont park west by south seventeen miles in an air line to and around the Statue of Liberty and back to the park, thirty-four miles in all, in 34 minutes 28.4 seconds, for a cash prize of \$10,000, donated by Thomas F. Ryan for the speediest trip to the statue and back during the aviation meet.

Claude Grahame-White, who on Saturday won the international speed race and the James Gordon Bennett cup in his 100-horse power Bleriot, made the trip from the park to the statue and return successfully an hour earlier than Moisant visited the bronze lady, but it took the Englishman's 100-horse power machine almost a minute longer to make the trip than it did Moisant's fifty-horse power of the same design. Grahame-White's time for the thirty-four miles was 35 minutes 21.30 seconds.

Just three minutes before Grahame-White started for the statue from the park, Count Jacques de Lesseps, of France, made the first start for the Statue of Liberty that has been made at the meet. Count de Lesseps got away in a Bleriot monoplane of fifty-horse power and made the voyage out and return successfully, but his time was 41 minutes 56.25 seconds or about 7 minutes and 18 seconds slower than Moisant.

Did not Circle Goddess of Liberty. Moisant and Grahame-White cut for the statue in a bee line as soon as they got high enough in the air to see the goddess and the captive balloon which the bronze girl from France was flying above the bay to guide the aviators toward her. De Lesseps left the aviation field along a high air lane that headed directly into the west, or somewhat to the north of the course taken later by Grahame-White and Moisant. Also when it came to swinging around for the return trip at the statue, De Lesseps circled the statue itself, flying so wide that his machine zipped above Black Tom's island, over near the Jersey shore; whereas Moisant and Grahame-White were content to circle only the balloon, which the twelve or fifteen mile southwest wind had blown out about 500 feet from the statue's head.

Moisant and Grahame-White, therefore, passed between the balloon and the head of the statue on their return trip and didn't go around the Goddess of Liberty at all. But according to the rules of the contest they were required to swing around the captive balloon only.

The American's victory, coming as it did after Grahame-White's flight, which looked like winning time at the late hour Moisant started out, sent the crowds on both sides of the field, which totaled from 35,000 to 40,000 people, into a state of ecstasy that might be conservatively be called a frenzy. The welcome home exercises on grand stand, lawn and field when Moisant's darning needle came back home from the golden haze of sunset and lit up the grass tips of the field a winner, reminded one of the dear dead days at Belmont, when Colin, a four-legged animal used for racing in earlier days and known as the horse, pounded past the grand stand with all the money.

Moisant's victory came after his big racing Bleriot had been smashed by a collision with Clifford B. Harmon's Farman biplane. It was the third complete smashup for the little Chicagoan, and he was in despair. In this black quarter hour his brother, A. J. Moisant, a banker of the Central American state of San Salvador, approached Alfred Le Blanc, the French aviator, who was badly injured in Saturday's Gordon Bennett cup race.

Brother to the Rescue.

"What is the price of your fifty-horse power Bleriot?" asked the banker.

"I will sell it for \$10,000."

"Will you give it to my brother right away for that sum?"

"Ah, no, Monsieur; I expect to win one or more prizes on Monday in it. Then, too, I can pick up several profitable engagements before returning to France."

A. J. Moisant thought a moment. "Compute for me, Monsieur," he said, "the amount of a bonus for which you would make an immediate delivery."

Le Blanc figured a while on the back of an envelope.

"That is the sum," he said, showing the result to the banker.

The other tore a check from its stub, filled it out for \$10,000 plus the amount of the bonus, scribbled on Le Blanc's envelope, and handed the check to the Frenchman.

Rheumatic Poison

Rheuma Drives It from the System and Cures Rheumatism.

Ever since People's Drug Store secured the privilege of handling Rheuma in Gettysburg the sales have been very large.

This is due to the fact that Rheuma really does cure Rheumatism, and that it is guaranteed to cure Rheumatism or money back.

It's a quick acting remedy, too. You don't have to wait a long while for results, for Rheuma starts at once to act on the kidneys, liver, bowels and blood, and before 24 hours the poisonous Uric Acid, which causes Rheumatism, has begun to pass out of the body through the regular channels.

One 50 cent bottle will prove to any Rheumatic sufferer that Rheuma surely will cure Rheumatism.

For quickest relief from acute indigestion, try English Marhue, 25 cents, at People's Drug Store. Mailed by Rheuma Co., Buffalo, N. Y.

Catarrh Sufferers

Good Thing to Know

If you now own a Hyomei hard rubber inhaler, People's Drug Store wants you to know that they will sell you a bottle of HYOMEI for only 50 cents.

Remember this, all who suffer with catarrh—a bottle of HYOMEI (pronounce it High-o-mei) is put up in a separate package and sold for 50 cents, to accommodate the vast army of people who already own a Hyomei inhaler.

People's Drug Store will sell it to you at that price and give you the opportunity to begin at once to rid yourself of vile catarrh and the snuffling, hawking and spitting that go with it.

Many people through years of neglect have let catarrh get a strong hold upon them. Some of these people unreasonably think that one bottle of HYOMEI ought to cure them.

No matter how chronic your catarrhal troubles, HYOMEI is guaranteed by People's Drug Store to cure them if you give it half a chance. Just breathe it, that's all, and its healing, soothing, antiseptic properties will make you feel better in a day.

If you own an inhaler get a 50 cent bottle of HYOMEI today. If you do not own a Hyomei inhaler, ask for a \$1.00 outfit, which includes inhaler.

Blankets, Cotton and Wool, Fleece Comforts Under Price

In a way we did a stroke of bad business two years ago in buying twice as many Blankets as we could sell in one season, we bought them in such quantities because we got them under price at the time. Since then Blankets have been very much advanced in price, both Cotton and Wool, Cotton especially, but we are selling them priced on the basis of their cost in June 1909, in other words, the same old price of last year.

I have a 35 barrel steel tank which I will sell cheap. John F. Bishop, Aspers, Pa.

William Lawrence is coming this way with his latest starting vehicle, "Dave Holcomb." The play has been this season in Boston, Providence, Philadelphia and the largest cities where both press and public declare it to be a worthy successor of "Way Down East," "Quincy Adams Sawyer," and "The Old Homestead." It will be remembered that Lawrence played Denman Thompson's part in "The Old Homestead" for the past five seasons, and in "Dave Holcomb" he has a play better adapted to the times dealing with a problem that now confronts the nation. Every father and mother should see this play, and above all, they should have their children see it. The play contains nothing to startle or offend any one, but will make one feel better after having seen it. Mr. Lawrence has given the play a splendid mounting and together with the original city cast will appear at Walter's Theatre this evening.

Lafean Zealously Guarded Interests of Constituents

From the time Congressman Lafean first entered the house of representatives he shaped his course that in dealing with matters of legislation he had in mind at all times the interest and welfare of his constituents. He has never been swayed by his own personal feelings or by the arguments of his colleagues. He has never sought cheap notoriety nor fulsome praise. In no more effective manner was his independence of action demonstrated than when he led the fight in congress against the passage of the Payne bill, admitting free of duty into this country of tobacco imported from the Philippine islands. This measure was championed by Representative Serene E. Payne, of New York, chairman of the ways and means committee, and Republican floor leader, and he had the backing of practically every member of that all powerful committee. Mr. Lafean worked night and day against this measure. He knew what disaster the passage of the Payne bill would have wrought to the tobacco growers, makers and manufacturers of cigars in York and Adams counties, a disaster so far-reaching in its consequences that it would have stifled a profitable industry and would have taken away from hundreds of his constituents engaged in one form or another their means of livelihood. Mr. Lafean did not rest until the Payne bill was successfully beaten. It was like going up against a stone wall, against overwhelming odds when Mr. Lafean fought the house leaders. He saved one of the most profitable industries in his district from absolute annihilation and was the instrument whereby hundreds of wage earners were not thrown out of employment. It is this spirit of independence on the part of Mr. Lafean which has endeared him into the hearts of the citizens of this community. He has zealously guarded at all times the interests of all the people of the Twentieth district, and has never allowed any man or set of men in congress to swerve him from the path of duty.
